### If I had a magic pencil

I wish I had a pencil with which whatever I draw would become real and alive. Then first of all I would draw a cuddly puppy because I want to have a pet. Then I would draw a big beautiful house for my family. It would complete my homework and I would have lot of time to play with my friends. I would use it to help the poor people also. All my problems would come to an end.

### If I had a magic carpet

If I had a magic carpet I would go for a trip every Sunday. I would fly in the clouds and see the beautiful ocean. I would see different kinds of fishes swimming in the water. I would just say a spell and I would fly high in the air. I would go to hot and cold places. The place I really want to go are the mountains. The magic carpet would fly faster than a train and even faster than an airplane.. I would be able to go anywhere. I would be such a lucky child. Every child has a dream like me.

### A Day I Enjoyed The Most

During my last summer vacation I visited Ladakh and Leh with my family. Ladakh is the most beautiful place I have seen in my life. It became a Union Territory on October 30<sup>th</sup>, 2019. First we rested in a hotel in Leh for two hours. Then we visited the Sindhu Ghat. There we saw a beautiful river flowing. The water of that river was very cold. Then we had our lunch in a small restaurant. After the lunch we went to visit the Shanti Stupa. From there we had a beautiful view of the Leh town. We also climbed up a hill. In one day we explored many places. So, it was a day I enjoyed the most

### MY FAVOURITE PLACE

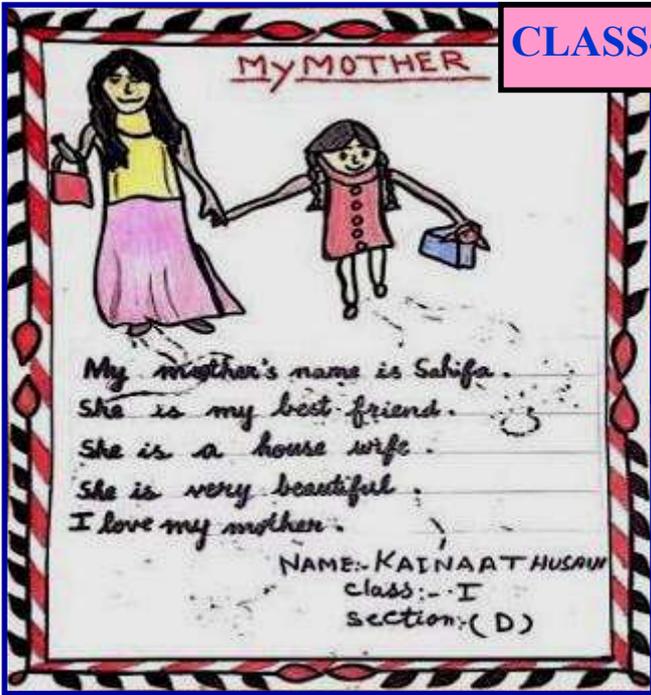

Garden is the best part of my house. It is full of flowers in all the seasons. I can spend hours in my garden without getting bored. Many beautiful birds have built their nests in the trees. I have also built a small house for my pet in the garden. It is my favourite place.

### A day when I was alone

Last Sunday my aunt and uncle invited us to their house for their Anniversary celebration. I had to complete my homework and prepare for my Module Test . So I did not go with my parents. While I was doing my work, suddenly the window of my room opened. I got frightened. But I gathered courage and shut it. After some time I felt hungry. I opened the refrigerator but found nothing. Disappointed, I came back to my table. Suddenly a mouse jumped onto my table. I yelled loudly. Hearing my shrieks, my neighbours came out . I jumped and rushed to open the door. At that moment my parents also arrived. I decided that I will never stay alone in the house again.
